How to Use This Book	1
Introduction	3
1 Garden Chemicals and Their Application	11
Fungicides	16
Bactericides	26
Nematicides	28
Virocides	29
Applying the Chemicals	30
Spraying vs Dusting	36
Mixing the Chemicals	37
All-Purpose Sprays and Dusts	39
Integrated Pest Management	40
2 Classification of Plant Pathogens	43
Fungi	46
Bacteria	64
Viruses, Viroids, Phytoplasmas	68
Nematodes	77

3 Plant Diseases and Their Pathogens	81
Anthracnose	83
Bacterial Diseases	98
Black Knot	134
Blackleg	137
Black Mildew	139
Blackspot	144
Blights	150
Blotch Diseases	218
Broomrapes	223
Cankers and Diebacks	224
Club Root	268
Damping-Off	270
Dodder	272
Downy Mildews	275
Fairy Rings	284
Fruit Spots	286
Galls	289
Leaf Blister and Leaf Curl Diseases	295
Leaf Scorch	298
Leaf Spots	302
Lichens	366
Mistletoe	367
Molds	372
Needle Casts	375
Nematodes	382
Nonparasitic Diseases	413
Powdery Mildews	439
Rots	455

Rusts	534
Scab	571
Scurf	579
Slime Molds	581
Smuts	582
Snowmold	592
Sooty Mold	594
Spot Anthracnose	596
Virus, Viroid, Phytoplasma – Pathogens and Diseases	602
White Rusts	679
Wilt Diseases	681
Witchweed	698
4 Host Plants and Their Diseases	699
Host Plants	702
Land-Grant Institutions and Agricultural Experiment Stations in the United States	1147
Glossary	1151
Selected Bibliography	1163
Index	1177
