Preface	v
Contributors	xi

PART I. ANALYSIS OF THE HEART PROTEOME

- 1 Two-Dimensional Polyacrylamide Gel Electrophoresis
for Cardiovascular Proteomics 3
Michael J. Dunn
- 2 Analyzing the Cardiac Muscle Proteome by Liquid Chromatography–
Mass Spectrometry-Based Expression Proteomics 15
**Anthony O. Gramolini, Thomas Kislinger, Peter Liu,
David H. MacLennan, and Andrew Emili**
- 3 Two-Dimensional Differential Gel Electrophoresis of Rat Heart
Proteins in Ischemia and Ischemia-Reperfusion 33
**Jun Sakai, Hironori Ishikawa, Hideshi Satoh, Setsuko Yamamoto,
Shinichi Kojima, and Masaharu Kanaoka**
- 4 Analysis of Antihypertensive Drugs in the Heart of Animal Models:
A Proteomic Approach 45
**Alberto Lázaro, Julio Gállego-Delgado, Julio I. Osende, Jesús Egido,
and Fernando Vivanco**
- 5 A Solubility Optimization Protocol For Two-Dimensional Gel
Electrophoresis of Cardiac Tissue 59
Brian A. Stanley and Jennifer E. Van Eyk
- 6 A Method for Effective Depletion of Albumin From Cellular Extracts:
Application to Human Myocardium 67
Brian A. Stanley and Jennifer E. Van Eyk

PART II. HEART SUBPROTEOMES

- 7 Subcellular Fractionation 73
Mariana Eça Guimarães de Araújo and Lukas Alfons Huber
- 8 Subfractionation of Heart Tissue: *The “In Sequence” Myofilament
Protein Extraction of Myocardial Tissue* 87
Lesley A. Kane, Irina Neverova, and Jennifer E. Van Eyk
- 9 Optimization of Cardiac Troponin I Pull-Down by IDM Affinity Beads
and SELDI 91
Diane E. Bovenkamp, Brian A. Stanley, and Jennifer E. Van Eyk

10	Proteomic Analysis of the Subunit Composition of Complex I (NADH:Ubiquinone Oxidoreductase) From Bovine Heart Mitochondria	103
	<i>Ian M. Fearnley, Joe Carroll, and John E. Walker</i>	
11	Identification of Targets of Phosphorylation in Heart Mitochondria	127
	<i>Roberta A. Gottlieb</i>	
PART III. PROTEOMICS OF HUMAN ATHEROMA PLAQUES		
12	Characterization of the Human Atheroma Plaque Secretome by Proteomic Analysis	141
	<i>Mari-Carmen Durán, Jose L. Martín-Ventura, Sebastián Mas, María G. Barderas, Verónica M. Dardé, Ole N. Jensen, Jesús Egido, and Fernando Vivanco</i>	
13	Characterization of HSP27 Phosphorylation Sites in Human Atherosclerotic Plaque Secretome	151
	<i>Mari-Carmen Durán, Elisabetta Boeri-Erba, Shabaz Mohammed, Jose L. Martín-Ventura, Jesús Egido, Fernando Vivanco, and Ole N. Jensen</i>	
14	Western Array Analysis of Human Atherosclerotic Plaques	165
	<i>Wim Martinet</i>	
PART IV. THE PROTEOME OF CELLS OF THE CARDIOVASCULAR SYSTEM		
15	The Proteome of Endothelial Cells	181
	<i>Jesús González-Cabrero, Mayte Pozo, Mari-Carmen Durán, Rosario de Nicolás, Jesús Egido, and Fernando Vivanco</i>	
16	Proteomic Study of Caveolae and Rafts Isolated From Human Endothelial Cells	199
	<i>Richard R. Sprenger and Anton J. G. Horrevoets</i>	
17	Proteomic Identification of S-Nitrosylated Proteins in Endothelial Cells	215
	<i>Antonio Martínez-Ruiz and Santiago Lamas</i>	
18	The Proteome and Secretome of Human Arterial Smooth Muscle Cell	225
	<i>Annabelle Dupont and Florence Pinet</i>	
19	Real-Time In Vivo Proteomic Identification of Novel Kinase Substrates in Smooth Muscle	235
	<i>Anne A. Wooldridge and Timothy A. Haystead</i>	
20	Proteomic Analysis of Vascular Smooth Muscle Cells Treated With Ouabain	253
	<i>Alexey V. Pshezhetsky</i>	

21	Isolation and Culture of Adult Mouse Cardiac Myocytes	271
	<i>Timothy D. O'Connell, Manoj C. Rodrigo, and Paul C. Simpson</i>	
22	Proteomic Analysis of Foam Cells	297
	<i>Peng-Yuan Yang, Yao-Cheng Rui, Peng-Yuan Yang, and Yan-Ling Yu</i>	
23	Isolation of the Platelet Releasate	307
	<i>Judith Coppinger, Desmond J. Fitzgerald, and Patricia B. Maguire</i>	
24	Enrichment of Phosphotyrosine Proteome of Human Platelets by Immunoprecipitation	313
	<i>Martina Foy, Donal F. Harney, Kieran Wynne, and Patricia B. Maguire</i>	
25	Characterization of Circulating Human Monocytes by Proteomic Analysis	319
	<i>María G. Barderas, Verónica M. Dardé, Mari-Carmen Durán, Jesús Egido, and Fernando Vivanco</i>	
PART V. CARDIOVASCULAR BIOMARKERS IN PLASMA		
26	Cardiovascular Biomarker Discovery by SELDI-TOF Mass Spectrometry	331
	<i>Olivier Meilhac, Sandrine Delbosc, and Jean-Baptiste Michel</i>	
27	Detection of Biomarkers of Stroke Using SELDI-TOF	343
	<i>Jean-Charles Sanchez, Pierre Lescuyer, Denis Hochstrasser, and Laure Allard</i>	
28	Depletion of High-Abundance Proteins in Plasma by Immunoaffinity Substraction for Two-Dimensional Difference Gel Electrophoresis Analysis	351
	<i>Verónica M. Dardé, María G. Barderas, and Fernando Vivanco</i>	
29	A Rapid, Economical, and Reproducible Method For Human Serum Delipidation and Albumin and IgG Removal For Proteomic Analysis	365
	<i>Qin Fu, Diane E. Bovenkamp, and Jennifer E. Van Eyk</i>	
PART VI. BIOINFORMATICS: EMERGING TECHNOLOGIES		
30	Mitoproteome: <i>Human Heart Mitochondrial Protein Sequence Database</i>	375
	<i>Purnima Guda, Shankar Subramaniam, and Chittibabu Guda</i>	
31	Techniques to Decipher Molecular Diversity by Phage Display	385
	<i>Dawn R. Christianson, Michael G. Ozawa, Renata Pasqualini, and Wadih Arap</i>	
Index	407
