

# Contents

<b>1 Coulomb Explosion Imaging of Molecular Dynamics in Intense Laser Fields</b>	
<i>A. Hishikawa, K. Yamanouchi</i> .....	1
<b>2 Intact Molecular Ion Formation of Some Organic Molecules by Femtosecond Lasers</b>	
<i>N. Nakashima, T. Yatsushashi</i> .....	25
<b>3 Ultrafast Electron Dynamics</b>	
<i>M.J.J. Vrakking</i> .....	43
<b>4 S-Matrix Theory of Nonsequential Double Ionization</b>	
<i>C. Figueira de Morisson Faria, X. Liu, W. Becker</i> .....	65
<b>5 Laser Control of Chemical Dynamics. I. Control of Electronic Transitions by Quadratic Chirping</b>	
<i>S. Zou, A. Kondorskiy, G. Mil'nikov, H. Nakamura</i> .....	95
<b>6 Laser Control of Chemical Dynamics. II. Control of Wavepacket Motion</b>	
<i>A. Kondorskiy, G. Mil'nikov, H. Nakamura</i> .....	119
<b>7 Pulse Shaping Technology of Intense Femtosecond Laser Pulses for Molecule Control</b>	
<i>F. Kannari, T. Tanabe, T. Okamoto, K. Ohno, H. Yazawa, R. Itakura, K. Yamanouchi</i> .....	143
<b>8 Control of High Harmonic Generation Processes Using Chirped and Self-Guided Femtosecond Laser Pulses</b>	
<i>C.H. Nam, H.T. Kim, V. Tosa</i> .....	159
<b>9 Focusing Intense High-Order Harmonics to a Micron Spot Size</b>	
<i>A. Suda, H. Mashiko, K. Midorikawa</i> .....	183

<b>10 Application of X-Ray Spectroscopy to the Study of Energy Transport in Plasma Produced by an Ultrahigh-Intensity Laser</b> <i>H. Nishimura, Y. Inubushi, S. Fujioka, T. Kawamura, S. Shimizu, M. Hashida, S. Sakabe, F. Koike, T. Johzaki, H. Nagatomo, and J. Mima</i> .....	199
<b>11 Collimated and Ultrafast X-Ray Beams from Laser–Plasma Interactions</b> <i>A. Rousse, K. Ta Phuoc, F. Albert</i> .....	215
<b>12 Investigations of Relativistic Laser Plasma from Micron-Sized Ar Clusters</b> <i>Y. Fukuda, K. Yamakawa</i> .....	231
<b>13 Full Vectorial, Intense Ultrashort Pulse Propagators: Derivation and Applications</b> <i>J.V. Moloney, M. Kolesik</i> .....	253
<b>14 Some Properties of Femtosecond Laser Filamentation Relevant to Atmospheric Applications</b> <b>Part I. The Robustness of Filamentation</b> <i>J. Kasparian</i> .....	281
<b>15 Some Properties of Femtosecond Laser Filamentation Relevant to Atmospheric Applications</b> <b>Part II. Large-Scale Filamentation</b> <i>J. Kasparian</i> .....	301
<b>16 Fast Electrons in High-Intensity Laser Interactions with Plasmas</b> <i>J. Zhang, Y.T. Li, Z.M. Sheng, Z.Y. Wei, Q.L. Dong, X. Lu</i> .....	319
<b>17 Ultraintense Electromagnetic Radiation in Plasmas: Part II. Relativistic Electromagnetic Solitons and Laser-Driven Ion Acceleration</b> <i>M. Lontano, M. Passoni</i> .....	341
<b>Index</b> .....	365
